The convening of this coroner inquest had three purposes:

- (1) To allow for the public ascertainment of facts related to the death;
- (2) To satisfy the community that the circumstances surrounding the death of no one of its members will be overlooked, concealed or ignored;
- (3) To ascertain if a jury could reach a verdict based on the evidence and testimony presented to them.

I am satisfied that the three purposes for convening this inquest have all been met and therefore it is my order that this inquest be now closed.

Dated October 28, 2011.

Warren McLeod
Lewis County Coroner
